

DUST COLLECTOR BDC-187PLP-UD

A PETROL POWERED DUST COLLECTOR

The BDC-187PLP-UD petrol powered dust collector provides a lot of flexibility on outdoor jobsites. It is equipped with a Longopac bagging system that allows you to collect the dust in easy to handle 25 kg bags, without dispersing dust. As a result, the operators have no contact with the dust in their immediate vicinity. In addition, the BDC-187PLP-UD is equipped with the Up & Down system ("low" position for transportation and "high" position in operation).

For a safe, dust free and perfectly clean jobsite, Blastrac has designed a full range of consumables and optional items to get the best possible results out of your dust collector.

USER FRIENDLY

Easy to manoeuvre and transport due to the robust wheels with brake systems. User friendly design, just connect the hose to the dust collector and you are ready to go. The Up & Down system makes it easy to transport from jobsite to jobsite.

LIMITED DOWN TIME

Our Longopac bagging system allows you to collect the dust in easy to handle 25 kg bags, without dispersing dust. The tube-like bagging system is dust free since the bags are replaced and sealed from the outside – there is no contact with the waste.

SAFE WORKING ENVIRONMENT

Every Blastrac machine has to be connected to a Blastrac industrial dust collector. This means that you are able to work dust free, creating a safe working environment.

	540 M ³ /H 3.200 MMH ₂ O
	160 KG
	1.310 MM 700 MM 1.655 - 1.975 MM

	GRINDERS SCARIFIERS SHOT BLASTERS

FOR HEAVY DUTY WORK

Our range of medium dust collectors is designed to be connected to our medium surface preparation machines. The high suction power, filter options and bagging system of these dust collectors ensures that all dust is safely collected.

FLEXIBILITY

The BDC-187PLP petrol powered dust collector gives you a lot of flexibility for outdoor jobsites. It is the perfect dust collector to connect behind our petrol powered scarifiers / grinders. This means you don't need to take a generator to your jobsite.

GREEN TECHNOLOGY

Our dust collectors, like any other Blastrac machine, do not use any chemicals or waste valuable drinking water.
